

### CPSD Vision 2023 (Step 2 - Synthesis of Table Teams)

The following provides the resulting observable indicators of success to support the mission of the Cranford Public Schools...

Vision Pillars
1. Students engage in real-world learning experiences that promote critical thinking, collaborative problem-solving and grit, that is guided through thoughtful feedback.
2. Teachers and students collaborate to create community outreach programs that promote diversity and empathy in our globally expanding technological society.
3. Teachers and students having open dialogue that demonstrates effective communication, which includes academic understandings and social/emotional learning.
4. Communication that fosters, community, parent, student, and staff collaboration focused on excellence. Students are able to collaborate effectively with each other and their teachers.
5. Promote and create an environment where students feel safe, confident to learn and develop skills to be lifelong learners A safe learning environment through physical, emotional, and mental structures and practices that revolve around healthy choices.

6. Students engage in services that benefit the community through various outreach that create win-win relationships.

7. Students develop social and emotional learning through a character education curriculum.

8. Teachers promote independent thinking in order to enable students to accept and adapt to others' points of view.

9. Teachers provide opportunities for visionary thinking where students can fail and then persevere.

10. Students operate from a strong social-emotional foundation in which they successfully self-advocate, engage in civic responsibilities, and take action in local and global events.

11. Community members uniting in a sense of urgency and seriousness of student learning and intent in schools.

12. Students engaged in learning experiences grounded in design theory and fostering creative and innovative thinking.
